

Oakridge Estates Homeowner;

## **DISCOUNTED BACKFLOW PREVENTION DEVICE TESTING**

Each springtime the Tualatin Valley Water District requests that the irrigation backflow preventers be in springtime.

I would like to offer to Oakridge Estates homeowners a discounted backflow test to all who wish it for the amount of **\$19.00**. If the backflow preventer is in the backyard, please indicate that you have a backyard assembly and that is okay to enter backyard to test. We will come out in April, test the preventer, leave a copy with an invoice at the door and submit a copy of the test report directly to the water purveyor.

In order for us to deliver this reduced rate, we must be able to test the preventer on a flexible schedule, and the preventer must be available for testing. If it is covered up with dirt, bark dust or inside a bush or shrub, we will be unable to test. Myself, or one of my testers will leave a business card on the door with a short note mentioning the issue. If we can re-visit the assembly prior to the last day of the program, there will be no additional charge. However, should the assembly be ready after the last day of the program, the test will be subject to the regular rate of \$30.

We must receive your request by **April 7**, all testing to be completed by **May 10, 2012**

Greg Douglas
